

JUNKER'S NURSERY

2025 – 2026

Higher Cobhay
Milverton
Somerset
TA4 1NJ

E-mail: karan@junker.co.uk

Website: www.junker.co.uk

Welcome to our stock list for the forthcoming season.

We remain committed to growing the most exciting plants to the best of our ability, and to giving you the kind of personal service that seems to have almost disappeared from society these days. We propagate everything that we sell from our own stock plants, and grow them all on here in Somerset. We do not buy in. It is our belief that too many plants are imported, with inherent establishment, pest and environmental concerns. We are proud to offer home grown plants and I urge you to "Buy British".

We are proud to be a true family business, but recognize that we are a little different to most nurseries. You might like to take a look at the **About Us** page on our website to understand our ethos.

We believe that the use of plastic pots is not sustainable, so we grow the majority of our stock naturally outside in the open ground, to be lifted, root-balled and wrapped (not to be confused with "bare-root" which is rarely as satisfactory.) There are so many advantages to this apparently "old-fashioned" method; not least of which is the production of hardier, more robust plants. They have an established natural root system, and are used to growing outside in all weathers. Thus they are better acclimatised, and will be far more tolerant of the extremes of weather that are becoming the norm, than soft plants pushed on in artificial conditions. These more robust plants will need less staking and protection when planted; their natural development typically resulting in a more compact, denser plant than their pot-grown equivalent.

Although we prefer to offer our plants from the open ground, our starting size continues to be pot grown plants in 3 litre pots. Inevitably as younger plants, these will be smaller and lighter. We also have a limited range available in 5 litre pots for convenience.

Our availability follows the natural cycle; typically we start lifting in early December, dependant on the weather and ground conditions. We then continue lifting right through until March or so, but very late planting can be risky in the event of a dry spring. Lifting is weather dependant though, as we can't continue if the ground is waterlogged or frozen solid. I would encourage you therefore to make your plans early and reserve your plants, so we can lift them at short notice when the time is right. We are blessed with magnificent views, so we are very exposed. Our plants will be hardy, that's for sure!

Our new site allows us to offer much larger specimens in addition to our traditional range, including semi-mature maples, magnolia and dogwoods that need to be seen to be believed! We are developing collections of a number of further genera, which will beautifully complement our existing range.

The following listing is intended to include all plants that will be available over the new planting season. I encourage you to use this catalogue in conjunction with our website

www.junker.co.uk

where full descriptions of many can be found. Although I have made some improvements, I am aware that the website still needs attention, but there are never enough hours in the day and I confess to preferring to work outside...

The increasing number of size options available makes it impossible to list all the options with their prices. In principle the price is determined by age rather than physical size; though clearly older plants will be larger and more substantial than their younger counterparts, within the parameters of the characteristics of the cultivar.

We are now incorporating a mycorrhizal fungi into our potting. This "friendly fungi" colonises the roots and compost inhibiting many fungal diseases as well as aiding the uptake of nutrients from the ground. This addition should aid the establishment of these strong plants in your gardens.

Since we have such an extensive collection, we don't propagate all cultivars every year. Hence we don't have all cultivars available in all sizes every season and as the season progresses, things will sell out.

Therefore, I will need to check the actual plants in order to give you accurate size and price details. In principle we will be offering our shrubs and trees in the following size groups this year, mainly from the open ground.

Group 1 - the starting size in 3 litre pots at £79 - £99 - £129 (dependant on variety)

Group 2 - the 5 and 7.5 litre plants typically range from around £159 - £249, which is a similar starting point for the open ground plants.

Group 3 - there is an excellent range around £299 - £599

Group 4 - there is an extensive range of beautiful older / larger / more mature plants increasing in price incrementally with age and size, from around £699 - £799 and on up to £999

Group 5 - for many plants, there are even more spectacular semi-mature specimens, available from around £1099 - £1299 - £1599 - £1999 - £2999 - £3999 - £4999 and so on

Group 6 - and then there is a more limited range of the very best, most mature specimens at higher prices, up to over ten thousand pounds

We simply have too many plants for me to be able to detail every option for every enquiry, so if you could give me an indication of your preferred budget on this basis, that will enable me to personally check the actual plants to give you accurate size and price detail of the most relevant plants for your purpose.

Although I urge you to explore our arguably eclectic listing in full, our primary specialties remain Japanese maples, Cornus (flowering dogwoods), Magnolia and Daphne. We grow a fabulous range of winter flowering Daphne, which we offer solely in pots. We are excited to now be starting to offer for the first time plants from our incredible collections of bulbs and woodlanders, so look out for Arisaema, Hepatica, Narcissus and Syneilesis in this list.

Collection of plants is welcomed, as often being best for the plants. It must be by prior arrangement, but I know that some of you travel significant distances to collect your plants from us. Therefore it is now possible for you to look around part of our beautiful display and trials gardens this winter. For more information, including admission fee and some seasonal photos, please see the **Visiting** page on our website.

Alternatively, delivery is not a problem. We use a number of different delivery methods, dependant on the size and nature of the order. The plant size usually determines the method, whilst the delivery address defines the delivery cost, so do please let me have the relevant postcode if delivery is required.

Let me know your further thoughts, preferences and requirements and, as always, I will do my best to help.

We have nearly 50 acres here, so I was rarely in range of the phone. Hence we no longer use a landline, so communication by email is essential please.

Karan Junker

If you are interested in purchasing any of our plants, drop me through an email with your wish list.

- Give me an idea of what sort of size plants you would prefer.
- As well as an indication of your target budget (this is important as it enables me to focus on the most relevant plants for you).
- I also need to know whether you wish to collect or have them delivered.
- Remember to include your full postal address including postcode.

I will then reply with price, size and availability detail and we can progress from there.

Acer campbellii 'Rogov'
Acer capillipes 'Antoine'

Acer 'Red Wings'

Acer rubrum cultivars We no longer offer Acer rubrum cultivars because we are finding that they are vulnerable to physical damage in the changing climate.
As an alternative, I would recommend a Parrotia cultivar or a Nyssa cultivar.

Acer shirasawanum 'Autumn Moon'
Acer shirasawanum 'Gloria'
Acer shirasawanum 'Kinkakure'
Acer shirasawanum 'Mr Sun'
Acer shirasawanum 'Palmatifolium'
Acer shirasawanum 'Red Dawn'
Acer shirasawanum 'Sensu'
Acer shirasawanum 'Susanne'
Acer tegmentosum 'Cobhay Ghost'
Acer tegmentosum 'White Tigress'
Acer x conspicuum 'Candy Stripe'
Acer x conspicuum 'Phoenix'
Acer x conspicuum 'Red Flamingo'
Acer x conspicuum 'Silver Cardinal'
Acer x conspicuum 'Silver Vein'
Agave americana 'Mediopicta Alba'
Agave applanta
Agave colorata
Agave fillifera
Agave geminiflora
Agave horrida
Agave lophantha
Agave lophantha 'Latifolia'
Agave marmorata
Agave ovatifolia
Agave stricta var. rubra
Agave victoriae-reginae
Arbutus x andrachnoides
Arbutus 'Marina'
Arbutus unedo 'Atlantic'
Arbutus unedo 'Quercifolia'

We are excited this year to be able to offer for the first time a range of *Arisaema* species and selections.

Arisaema

These will include: *A. kuishianum*, *A. formosanum* x *taiwanense* 'Silver Cloud', *A. taiwanense*, *A. taiwanense* Silver leaf.

Please email for a complete list or to discuss availability.
